TESTIMONIALS

I am extremely happy with my dealings with Panda Farm. There has been constant feedback as to the availability of the product I was purchasing and the safe delivery to me in perfect condition. I would be happy to deal with this seller should I require another's of their products in future.

Really good sale. We bought an earlier model of the same chook house a couple of years ago (still going strong) and it is great to see what a pride Matt takes in his work and the various improvements he has made to an already great design. Very good to deal with. More than happy with the product and the service thanks.

Just wanted to say a HUGE thank you to you both for building & assembling the Manor for us on the 23rd. Our girls were totally thrilled with it and we managed to keep it hidden until Christmas morning. It has got much use already. We've had friends & little ones come around just to look at it, as they saw facebook photos. At least 3 have said they would love to get one for next Christmas so I've passed on your details.

The kennel was made to a high standard and was very professional looking. I spent a long time looking at kennels and this was definitely the highest quality one for the price range. The kennel was made very fast and the seller made the transaction easy and pleasant. Highly recommend.
